## Things You Should Know Before You Apply

---

Upon acceptance into the Coastal Carolina Community College Nursing Transition program, you will be required to:

- Adhere to all aspects of clinical agency minimum age requirements. Students must be at least 18 years of age prior to starting clinical rotations to meet the minimum age requirement of all clinical agencies.
- Have a physical exam and complete a Student Medical Form documenting a level of physical and emotional health consistent with the ability to practice nursing in an entry-level clinical setting.
- Document that you have had several required immunizations specified on the Student Medical Form.
- Be screened for tuberculosis (both on admission and annually).
- Obtain and maintain current certification in American Heart Association's Basic Life Support for Health Care Providers (often referred to as BLS or CPR) prior to the start of clinical rotations. This certification must be maintained through the duration of the program. Additional information will be provided during the orientation.
- Travel at your own expense to out-of-town clinical agency locations (when necessary) in order to complete clinical requirements of the program. You will be expected to make your own arrangements for transportation and meals as necessary for clinical practice rotations.
- Adhere to all aspects of clinical agency dress codes. Most clinical agencies have policies that regulate body jewelry (such as worn in piercings) and/or prohibit visible tattoos.
- At your own expense, have a criminal background check and urine drug screen.
  - These are needed to obtain access to our clinical agencies. The results are provided to our affiliated clinical agencies. They do not affect admission decisions, but it is possible that the results may prevent the applicant from participating in the clinical rotations, and thus from continuing in the program.
  - The Board of Nursing in all states also requires fingerprints and a criminal background check prior to issuing a license to practice nursing. A history of felony or misdemeanor convictions could result in denial of a license to practice nursing.

Currently, there are no distance education options for completing the entire ADN or PN programs. Applicants who are accepted should typically expect to be available Monday through Friday from 6:30 a.m. to 7:15 p.m. Applicants should also be prepared to provide their own transportation to and from clinic sites, which may be outside of the Jacksonville area.

Please note: Coastal's ADN program is a daytime program.

## Communicable Disease Statement

---

Students enrolled in Nursing and Allied Health programs are at risk of exposure to bloodborne pathogens and body fluids, and the potential exists for transmission of infectious diseases (e.g., HIV, Hepatitis, etcetera). Discrimination against patients with HIV and other infectious diseases is prohibited; therefore, students are required to treat all patients assigned. Refusal to treat any patient may affect the student's academic success.

The complete Communicable Disease Policy is available in the *College Catalog*.

Students enrolled in any Nursing and Allied Health program who test positive for HIV or Hepatitis prior to or at any point during their enrollment in the program must submit a written notification to:

Chief, Communicable Disease Control Branch  
1902 Mail Service Center  
Raleigh, NC 27699-1902

Students who enter any Nursing and Allied Health program will be required to read and sign a Communicable Disease Statement acknowledgement form. This form becomes part of the student's departmental record and attests that the student:

- Has been informed of their risk of exposure to bloodborne pathogens and body fluids;
- Understands the potential for transmission of infectious diseases;
- Agrees to provide care for all patients assigned to them;
- Understands that refusal to treat any patient may affect their academic success;
- Has been informed of the complete Communicable Disease Policy; and
- Must comply with all related guidelines and procedures.

The student and a witness must sign the Communicable Disease Statement acknowledgment form.

## Nursing Technical Standards

**Purpose Statement:** Technical Standards are provided to students to identify a specific list of the non-academic abilities and characteristics established by a program as requirements for admission, promotion, and graduation. Section 504 of the Rehabilitation Act of 1973 defines a qualified individual as one who meets the academic and technical standards requisites for admission or participation in an education program.

All students in Nursing are expected to meet certain essential functions/technical standards which are essential for successful completion of all phases of the program and reflect industry requirements and standards. To verify a student's ability to perform these essential functions, a student *may be required to demonstrate* the following technical standards in the table below. Meeting these standards does not guarantee employment in this field upon graduation. The ability to meet the program's technical standards also does not guarantee a student's eligibility for any certification exams or successful completion of the program.
