

Workforce Training & Continuing Education

Schedule of Classes

October – December, 2025

Kenneth B. Hurst
Continuing Education Building
444 Western Boulevard
Jacksonville, NC 28546
910-938-6294

IMPORTANT CONTINUING EDUCATION INFORMATION

To register, complete a registration form (one per class) and pay the registration fee. Students can register in person at the front office in the (CE) Building, by e-mail, or by fax. From our homepage, select Workforce Training and Continuing Education under the "Academics" tab. There you will find a link for the Registration Form. Print and complete both pages and submit them via fax (910.347.6174) or e-mail (ConEd@coastalcarolina.edu). After submitting the form(s), please call (910.938.6294) to complete payment over the phone, before close-of-business on the same day. Students should register as early as possible, as many of our classes fill up quickly. Office hours are M–F 7:30 AM–6:00 PM.

A Minor Application Form is required for individuals aged 16 and 17 enrolling in the College and Career Readiness (CCR) Program for high school completion. Visit the CCR office in Room 208 of the CE Building, call (910.938.6259), e-mail (collegeandcareerreadiness@coastalcarolina.edu), or visit (select Continuing Education, CCR Program) to obtain further information about this form.

Course fees are set by the state and are based on the number of class hours: 1–24 hours: \$70; 25–50 hours: \$125; 51+ hours: \$180. (Exceptions include Small Business Center seminars and self-support classes, for which fees vary.) Course fees may be paid in person at the front office in the CE Building. Accepted payment methods include cash, check (payable to "Coastal Carolina Community College" or "CCCC"), money order, or credit/debit card (MasterCard, Visa, American Express, and Discover are accepted). Credit card payments may also be made by phone after the registration form(s) have been received in the office. Textbooks are not included in the registration fee (see below).

ADDITIONAL FEES: The following fees are in addition to the registration fee and are collected at the time of enrollment: A Supply/Tech Fee of \$15 is included for applicable classes over 96 hours. An OSHA Card Fee of \$8 is included for applicable classes. A non-refundable Student Accident Insurance Fee of \$1.00 is included when applicable. A Liability Insurance Fee of \$16 is included for students who will be providing services to the public (health-related courses, Massage Therapy, etc.).

Make checks or money orders payable to "Coastal Carolina Community College" or "CCCC". Postdated checks are not accepted. There is a \$25.00 fee for returned checks. Thank you for including your driver's license number or student ID number on checks. Credit card payments can only be accepted from the person whose name appears on the card.

Please call the College Store at (910.938.6295), or visit them in the Student Center for textbook costs and information. Please note that the College Store has a 10-day return policy. It is strongly recommended that students not purchase textbooks prior to 10 days before the class start date, as textbooks may change from previous classes. Textbooks are not returnable if shrink wrap is broken or disks are used or missing. All returned merchandise must be unaltered and in its original packaging. Bookstore hours: M–Th 8:00 a.m.– 5:00 p.m., F 8:00 a.m. – 3:00 p.m.; closed Sat/Sun and holidays.

The Continuing Education Unit (CEU) is used as the basic unit of measurement for an individual's participation in CE non-credit classes, courses, and programs. CEUs will be awarded to individuals who successfully complete a course in occupational or academic program area. A CEU is a unit whereby then (10) contact hours equal one (1) CEU credit. To be eligible for CEU's, a student must attend 75% of the course. Students will be mailed a Certificate of Completion indicating the number of CEUs earned. CEUs do not apply toward college degree requirements.

Should it become necessary to close the College because of inclement weather (storms, ice, snow, etc.), local radio, television stations and all social media outlets will be notified. Students should stay tuned to local stations, telephone the College at (910.455.1221), or consult Coastal's website for more information relating to closings.

Continuing Education classes must have sufficient enrollment in order to run. Early registration for classes helps to guard against cancellation. In the event that a course is canceled due to low enrollment, inclement weather, etc., registered students will be notified by phone and/or email if classes are canceled.

(1) A student who officially withdraws (in writing) from a class(es) prior to the first class meeting shall be eligible for a 100 percent refund. (2) A student who officially withdraws (in writing) after an occupational extension class has already begun shall be eligible for a 75 percent refund provided that the withdrawal is prior to or on the 10 percent date of the scheduled hours of the class. Note: This rule is applicable regardless of the number of times the class meets. (3) In the case of a contact-hour or online class, a 75 percent refund shall be made if the student officially withdraws (in writing) on or before the 10th calendar day from the first scheduled date of the class. (4) A student who officially withdraws (in writing) from a self-support class (Personal Enrichment, Motorcycle, Defensive Driving, etc.) prior to the first class meeting shall be eligible for a 100 percent refund. (5) A student is eligible for a 100 percent refund if an applicable class is canceled by the College. (6) For applicable classes, none of insurance fee is refundable once the class has started whether the student attended the first day of class or not.

About Workforce Training and Continuing Education...

The Continuing Education Division at Coastal Carolina Community College plays an active role in the continuing education of the citizens of Onslow County. The Continuing Education Division provides courses that upgrade the occupational skills and knowledge of individuals at all levels of labor and management, offers services to small businesses, and develops programs to meet the training needs of new and expanding industries.

Programs are also provided to meet literacy needs, basic skill improvement, college and career readiness, and high school equivalency certification. Additionally, a broad range of course is offered enabling individuals to improve home and community life and develop or improve leisure time activities or practical skills. The division is divided into five primary areas of focus: Occupational Extension, College and Career Readiness, Center for Business and Industry Development, Human Services, and Community Service.

Please visit our on-campus office in the Kenneth B. Hurst Continuing Education Building (located at the corner of Western Boulevard and University Drive), call us at (910.938.6294), or email us at (coned@coastalcarolina.edu).

COLLEGE & CAREER READINESS

The College and Career Readiness (CCR) program is committed to providing opportunities for adults to improve their academic and workplace readiness skills. Through innovative, contextualized instruction and student supports, students can meet their education and career goals. Classes and labs are provided at no cost. Minors (16-17 years old) are required to complete a minor application form prior to admission to the program. To enroll in CCR, obtain a minor application form, or get information for placement testing, contact the Academic Studies Center at (910) 938-6259.

CCR is located in the Kenneth B. Hurst Continuing Education Building, Room 200. For more information, please call (910) 938-6259 or email ccr@coastalcarolina.edu.

All CCR classes are tuition-waived.

HOW DO I REGISTER FOR THE COLLEGE AND CAREER READINESS PROGRAM?

To enroll in CCR, potential/interested students are required to register in the Academic Studies Center, located in Room 200 of the Kenneth B. Hurst Continuing Education Building, and take the TABE assessment.

PLACEMENT TESTING INFORMATION

CASAS and TABE placement testing is available in the Academic Studies Center, located in the Kenneth B. Hurst Continuing Education Building, room 200. No appointment is necessary. Testing is free of charge.

Academic Studies Center

Testing Hours:

Monday – Thursday, 8:00 a.m. – 8:30 p.m.

Friday, 8:00 a.m. – 5:00 p.m.

Please allow at least 2 hours for testing.

No appointment is necessary.

Call (910) 938-6259 for more information.

HIGH SCHOOL EQUIVALENCY (HSE) PREP

HSE is designed for students seeking a high school equivalency diploma. HSE provides instruction in reading, writing, math, science, and social studies, with a focus on employability skills and college readiness. Coastal Carolina Community College offers two options—the GED and the HiSET exam. Upon successfully completing one of these exams, students receive a North Carolina High School Equivalency diploma.

ENGLISH LANGUAGE ACQUISITION (ELA)

ELA is a course designed for English language learners who desire to speak, read, and write the English language in order to get a job or go to college. Students develop college and career readiness skills, including technology, civics, and workplace skills through reading, writing, listening and speaking experiences.

ADULT HIGH SCHOOL (AHS) DIPLOMA PROGRAM

A student may earn a North Carolina Adult High School Diploma by completing credits required by the state of North Carolina. An evaluation of recent transcripts by the AHS Coordinator will aid in determining AHS Diploma Program eligibility. Students can earn up to six credits through Coastal Carolina Community College.

CAREER AND LIFE SKILLS

Career and Life Skills courses are designed for students who have an intellectual disability or those who need continued support in functional academics. It is ideal for students who graduated high school with an Occupational Course of Study diploma or a Certificate of Completion and want to achieve a higher level of independence by focusing on academic, vocational, and life skills.

DIGITAL LITERACY

Digital Literacy classes are designed to provide students with the essential technology skills they will need in order to continue their education or begin a new career path. Computer Basics is designed to target fundamental skills such as using a keyboard and mouse, conducting Internet searches, and utilizing email. Computer Applications builds on the skills learned in Computer Basics, with instruction in word processing, spreadsheets, and multimedia presentation software.

College & Career Readiness Courses

Registration requires completion of the TABE Assessment which determines class placement.

REGISTRATION, TESTING, AND ADVISING MUST BE COMPLETED BEFORE REGISTRATION DEADLINE. THIS PROCESS TYPICALLY TAKES MORE THAN ONE WEEK TO COMPLETE.

All classes are subject to change and/or cancellation based on minimum number of registration and enrollment requirements. All classes are seated unless noted otherwise. Class Days & Time marked with (*) indicate varying schedules based on student needs.

OCCUPATIONAL EXTENSION (OE)

Coastal Carolina Community College is an innovative and comprehensive college that advances the lifelong educational development of students consistent with their needs, interests, and abilities while strengthening the economic, social, and cultural life of its diverse population. Coastal answers the community's job training needs by providing entry-level training, re-training, and upgrading for improving job performance. We offer non-credit courses in the following areas: Computer Training, Allied Health Occupations, Public Safety, Business & Office, Specialty courses (including Teacher Renewal and Foreign Language), Vocational & Trades, and Personal Enrichment. The occupational extension program offers standard, existing courses or develops courses designed especially for businesses, organizations, agencies, or industries. The following pages contain our course descriptions. Many courses lead to state and/or national certifications.

For the current schedule of offerings, see pages 26–27. For more information, please call (910) 938-6294, or email coned@coastalcarolina.edu or visit the main office in the Kenneth B. Hurst Continuing Education Building.

Computer Training

Coastal recognizes the importance of computers and technology in today's workplace. Whether you are new to computers, learning new software applications, or an experienced user seeking a certification, our Computer Training bridges the digital divide by offering opportunities to all members of the community. Certificate programs consist of multiple courses with the focus of providing proficiency in the subject area with excellent instructors and convenient times/locations. Many courses lead to national certifications such as CompTIA (A+, Security+ and Network+), Microsoft Office Specialist (MOS), Commercial Drone Pilot, Cisco (CCNA), and Project Management Professional (PMP).

GENERAL
Computer Basics II
This course is designed to expand your PC knowledge beyond what you've learned in "Computers for the Absolute Beginner". Students will learn the difference between the various Windows operating systems that are currently in use, understand basic PC maintenance, learn to use the Internet, and how to send emails and instant messages. Students will also gain more in-depth information on file and folder structure, software installation, customizing the look of the computer, and protecting the computer from viruses, malware, etc. 24 Hours/ \$71.00

Data visualization is becoming an increasingly important skill, especially in the “big data” workplace. In this course, students will learn how to effectively present key information in a way that can be quickly consumed and acted upon. Excel can connect to a wide range of data sources, perform robust data analysis and create diverse and robust data-backed visualizations to show insights, trends, and create reports. Requirements: Students should understand basic charts and familiarity with Microsoft Excel. 24 Hours/\$71.00
Introduction to Power BI
This course teaches participants how to navigate the MS Power BI software and to use this tool to create useful visualizations of datasets. Data Visualization is the graphical depiction of datasets using items such as bar charts, line graphs, scatterplots, etc. Students will discover how to present data that allow your audience to quickly understand, derive insights, or see trends from the data. Requirements: An understanding of bar charts, line graphs, etc. Familiarity with MS Office applications, particularly Excel. 24 Hours/\$71.00
Fundamentals of Power Platforms (NEW)
Participants will discover the value and capabilities of Microsoft Power Platform. Learn how to create simple PowerApps, connect data with Dataverse, create a Power BI Dashboard, and automate processes with Power Automate. This course is for users who aspire to improve productivity by automating business processes, analyzing data to produce business insights, and acting more effectively by creating simple app experiences. Prerequisite: Excel experience preferred. 12 hours/\$71.00

IT CERTIFICATION TRAINING
COMPTIA A+ Certification Exam Prep (220-1101) Hybrid - Core 1
Our CompTIA A+ Certification Prep (hybrid) course combines both instructor-led and online learning to help students build their existing user-level knowledge and experience with personal computers (PCs). This 220- 1101 course will cover mobile devices, networking, hardware, virtualization, cloud computing, and hardware/ network troubleshooting. CompTIA A+ is compliant with ISO 17024 standards and is approved by Department of Defense Information Security to meet Directive 8140.01 requirements. Requirements: Students must have basic computer user skills and be interested in obtaining a job as an entry-level IT technician. 60 Hours/\$181.00
COMPTIA A+ Certification Exam (220-1102) Hybrid - Core 2
This course will build on your existing user-level knowledge and experience with personal computer (PC) software and operating systems. Acquire the essential skills needed to install, configure, optimize, troubleshoot, upgrade, secure, and perform preventive maintenance on PC and digital device operating systems (OS). Students will explore Windows, MAC and Linux. Students will also explore Microsoft command line tools and security and troubleshooting objectives for desktop, mobile, and wireless systems as well as operational procedures. Requirements: This course is for users who have basic computer user skills and who are interested in obtaining a job as an entry-level IT technician. 60 Hours/\$181.00
COMPTIA Security + Certification Exam (SY0-701) Prep Course
Security threats are occurring with more frequency and the demand for Information Security professionals is increasing. One of the more popular security certifications is the vendor-neutral CompTIA Security+ certification. Government employees working in the Information Technology and Computer Security fields are expected to complete the Security+ exam in order to stay compliant with the DoD 8140.01 policy. This training will help you understand the field of network security and how it relates to other areas of information technology while preparing you to pass the current CompTIA Security+ exam. This course covers a broad review of information security, including network attacks, PKI, intrusion detection, cryptography, and disaster recovery. Upon completion, students should be prepared to complete the CompTIA Security+ SY0-601 exam. Requirements: Basic knowledge of computer/network security along with a working knowledge of computers. Or have completed the COMPTIA A+ or Network + courses. 50 Hours/\$126.00

CompTIA Network+ and Security+ Exam Prep Boot Camp (NEW)
This class is designed to help prepare students for the Network + and Security + certification exams. During this course of study key security issues and procedures in computer and mobile communication networks will be examined. Among the issues to be discussed are: the security of LANs, WANs, databases, and network operating systems; threats to computer networks through exploitation of network infrastructure design weaknesses; security flaws in the network infrastructure protocols; security of content in computer network services; risk assessment and security policies; and security in mobile communication networks. Other topics include: network intrusion detection and forensics technologies, cryptographic and authentication systems, capability and access control mechanisms, and Internet routing and transport protocols. Requirements: CompTIA A+ or equivalent knowledge. 180 Hours/\$191.00
CompTIA Network+ Certification Exam (N10-009) Pre Course
This course provides network technicians and support staff with the foundation level skills needed to install, operate, manage, maintain, and troubleshoot a network. Students will receive 96 hours of training on network protocols and standards, media and topologies, network implementation, and network support. Requirements: CompTIA A+ or equivalent knowledge. 96 Hours/\$191.00
Cisco CCNA 200-301 Certification Exam Prep Part I
This Cisco course is designed to help students understand the 29 chapters in Volume I of the Cisco CCNA 200-301 certification guide. The course will test a candidate's knowledge and skills associated with network fundamentals, IP connectivity, network access, IP services, security fundamentals, automation, and programmability. The exam prep also provides foundational knowledge for all support technicians involved in the basic installation, operation, and verification of Cisco networks. Requirements: Any student taking this course should have basic knowledge of networking, computer hardware and software basics, router and switching knowledge from work experience or other courses. More experience and/or coursework will help you chances to pass the CCNA exam. 60 Hours/ \$181.00
Cisco CCNA 200-301 Certification Exam Prep Part II
This Cisco course is designed to help students understand the 20 chapters in Volume II of the Cisco CCNA 200-301 certification guide. The course will test a candidate's knowledge and skills associated with network fundamentals, IP connectivity, network access, IP services, security fundamentals, automation, and programmability. The exam prep also provides foundational knowledge for all support technicians involved in the basic installation, operation, and verification of Cisco networks. Requirements: Any student taking this course should have basic knowledge of networking, computer hardware and software basics, router and switching knowledge from work experience or other courses. More experience and/or coursework will help you chances to pass the CCNA exam. 60 Hours/ \$181.00
Project Management (PMP) Certification Exam Prep Course
This course is designed to prepare the student for the new PMP certification examination with a rigorous review of Project Managements best practices that include guidance of those knowledge and experience areas required. To achieve PMP certification, each candidate must satisfy all educational and experiential requirements established by PMI, and must demonstrate an acceptable level of understanding and knowledge about project management that is tested by the Project Management Professional Certification Examination. This course will examine the special nature of projects, concepts, definitions and approaches. Critical to mastering the PMI methodology is a clear understanding of the Project Management domains. Course Prerequisite: Refer to www.pmi.org for the exam eligibility criteria. 51 Hours/\$181.00
WEB DESIGN, MULTIMEDIA, AND DIGITAL PHOTOGRAPHY
SharePoint Tools: Power Automate, Power BI, Power Apps and MS Forms
This course is designed to introduce SharePoint administrators to various tools that can be used to help connect and organize dynamic sites and pages to better meet the needs of the organization. Power Automate is a cloud-based software tool that allows users to create and automate workflows across multiple applications and services. PowerApps is tool consisting of apps, connectors and services used to build custom apps. Power BI is a tool used to import and transform data for visualization purposes. MS Forms allows the user to create forms for data collection and feedback Requirements: Student should have a solid understanding of SharePoint. 24 Hours. \$71.00
SharePoint Online Power Users and Site Administrators Course
This course is designed for SharePoint users who have experience with a previous version of SharePoint and are assigned to perform as site administrators, site managers, or have extended skill sets. As a result of this training, users will be able to create and manage a SharePoint site, create and manage site content, lists, and libraries, and optimize the Office integration capabilities of SharePoint online. Users will manage content approval, site permission governance, metadata, and social networking capabilities. Requirements: Working knowledge with a previous version of SharePoint of completion of the SharePoint End-User course. 24 Hours/\$71.00

SharePoint Online for the Office 365 End-User
This instructor-led SharePoint for Office 365 End User Training class is for end users and site owners new to working in a SharePoint environment in Office 365. The course teaches SharePoint basics such as working with lists and libraries, basic page customization, and working with forms. 24 Hours/\$71.00
Video Editing
Unleash your creative potential with this video editing class! Students ranging from beginner to intermediate skill level will learn how to dramatically improve the quality and impact of their video content using the free and powerful editing tools in the DaVinci Resolve software. The course objective is to teach students how to collect, assemble and optimize audio/video footage. Some of the concepts covered are: How to best capture video footage based on target application, optimizing exposure, color correcting, color grading, enhancing soundtrack, adding music, voice over, adding transitions and effects, assembling then into final videos, and then rendering them into high impact videos. The course presents editing concepts and takes students through targeted skills practices using practice content or their own files to create professional looking videos. Students will be able to share their videos in class. Students are required to bring their laptop with DaVinci software installed. 24 Hours/\$71.00
Commercial Drone License Exam Prep
The course will provide the student with the information they will need to successfully pass both the Federal and North Carolina's drone knowledge tests. When you pass the knowledge tests you can apply for a commercial drone license (FAA) and operators permit (NC). These tests cover a wide range of aeronautical topics, acronyms, rules, map reading, weather reports, crew management, and scenario-based situations. This class is designed for people without pilot training. The class does not include any flight time with a drone. Requirements: Recommend students can read, write, and understand the English language and be proficient in basic math skills. 24 Hours/\$71.00
Digital Photography Immersion Course (NEW)
This fun and intensive photography workshop seeks to help significantly improve our student's digital images. During the 4 week/twice a week classes; we will explore some critical camera operational settings along with compositional techniques students can use to improve image impact. Creative homework assignments will be given to allow skills practice and then each student selected 6-10 images will be submitted for in-class review. Requirements: Student must have access to a digital camera (phone is ok) and know how to download and copy selected images to a thumb drive (32GB or larger). Students are expected to bring 6-10 previously captured images to first class. 24 Hours/\$71.00
Adobe Photoshop Tips and Tricks
In this course you will learn the fundamentals of Photoshop CC, the tool for most creative projects. The class begins by teaching the Photoshop interface and how to properly set up a system for professional quality image editing. You'll then discover simple techniques for efficient photo retouching, repair, and publishing. You will learn to work with layers, masks, channels and typography, and gain the skills you need to create amazing image effects. 24 hours
Web Design: WordPress Fundamentals and Beyond
Learn how to use WordPress to create a quality website with proper corresponding subpages, create attractive themes for the website with custom menus to improve the user experience. Also learn how to upload multimedia content such as images, audio, and video easily and effectively. This is an ideal course for anyone new to WordPress. Requirements: Familiarity with computers. 24 Hours/\$71.00

Business and Professional Development

For students who need skills and knowledge to enter a new field, enhance skills in a current field to become certified, or want to build professional development skills to be more effective in the workplace and at home.

Notary Public
This course is designed to provide certification as required by North Carolina General Assembly, Chapter 10B. After passing our course, students will be required to send an application form and \$50 fee to the state. Upon approval, students will take an oath at the county courthouse and pay a \$10 fee for the official appointment certificate. Requirements: Students must show a North Carolina photo ID with signature at first class meeting. Textbook. 8 Hours/\$71.00. Must have HS Diploma or GED.
E-Notary Certification
This course is designed to provide Commissioned Notary's Public with the information, training, and procedures to become an approved North Carolina Electronic Notary. All course material and topics will be taught per the North Carolina General Assembly, Chapter 10B. To be eligible to take this course, students must be a current North Carolina Commissioned Notary Public. Requirements: Must be a current Notary Public. Textbook. 3 Hours/\$71.00.
ASVAB PREP
Armed Forces Career Pathway
Do you want to join the military, but you're intimidated by the ASVAB test? Have you already taken the ASVAB, and you want to improve your score? This course is designed to help individuals who are preparing to take the military entrance examination (ASVAB) to enter one of the U.S. Military branches. As a student in this course, you will receive instruction in foundational education topics such as reading comprehension, mathematics, and applied science in a contextualized format which can help you to increase your AFQT score on the military entrance exam. This course is not for individuals already serving in the military. Coordination with a local military recruiter is NOT required. Requirements: TABE placement testing required. 84 Hours/ tuition waived. Contact the College & Career Readiness Office at 910-938-6259 for more information and future class dates.
COOKING AND CULINARY
ServSafe
ServSafe is a nationally-accredited course that provides those that work in a food service organization rules for safe food handling, storage, temperatures, self-inspections and other food-service related topics. Requirements: Students must have current edition of textbook with an exam answer sheet. 14 Hours/ \$71.00.

TEACHER RENEWAL CREDIT	
Coastal's teacher renewal credit programs support re-certification and professional development according to the state and national standards. Teachers are afforded the opportunity to update their skills, enhance their knowledge to become a more effective classroom teacher and learn the latest technology.	
Advanced Digital Design for Teachers	
Today, schools are more dedicated than ever to incorporate the use of technology into every aspect of learning. In this course, participants will discover straightforward digital design techniques that will guide the viewer's eye and enhance comprehension. The effective use of digital design and multimedia is behind every good learning environment. This project-based course is designed for Educators and Facilitators to help develop learning solutions that integrate digital tools and content that engage and connect learners in new and exciting ways. 24 Hours/\$71.00.	
Teaching Smarter with SmartBoards	
In this class, you'll discover how to create outstanding presentations with SMART Board and SMART Notebook technology. You'll explore the basics of using these tools and discover how to create your own SMART board lessons blending text, videos, and graphics. You'll also go beyond bells and whistles and look at specific ways to use SMART technology to broaden your content and make your lessons accessible to all students. Offered monthly via Ed2Go. Requirements: Must enroll on the Ed2Go website at http://www.ed2go.com/cccc2go . 24 Hours \$71.00.	
Office 365: Apps for Education - Part I	
Take your knowledge to the next level! In this course, participants will learn best practices, and tips on how to become more innovative with the Office 365 cloud-based tools (regardless of the device used) such as Microsoft Teams, Delve, Sway, OneNote, Forms, Flow, and One Drive. MS Teams is the key communication tool used to bring all of the content, apps, and conversation together. With MS Forms, you can create surveys and quizzes. Sway is the app used to create interactive web-based lessons, assignments, and projects right from the tablet, phone, or browser. 20 Hours/\$71.00.	
Camtasia and Captivate Basics	
This exciting hands-on training course provided participants with the essentials needed to understand how to use the eLearning tools, Camtasia (all-in-one screen recorder and video editor) and Captivate (and screen and eLearning authoring tool) to enhance the classroom learning experience. Multimedia lecturers, teachers, training managers, instructional designers, eLearning content developers, and marketing and communication professionals would all benefit from this course. 24 hours	
Gamification Apps for Use in the Classroom	
Learn resourceful ways to use games in the classroom to get your students working, thinking, laughing, and ENGAGING. In this course, participants will learn techniques and tools to integrate gamification into your classroom. Gamification strategies not only increase students motivation, but maximize interaction with the content. Discover user-friendly ways to incorporate game design elements into not only the content, but into classroom routines as well. 20 Hours/\$71.00.	
Google Apps	
This Google Apps course introduces students to the various Google tools and applications. Google Apps is a suite of apps which offer a free alternative to Office 365. The apps covered in the course includes: <i>Google Docs, Google Sheets, Google Forms, Google Earth and Maps, Presentation, Google Drive, Google Calendar and Gmail</i> . During this hands-on course, students will learn how to use the various apps with emphasis on collaboration, communication, and productivity. 20 Hours/\$71.00	

Allied Health - Medical Office

Courses are scheduled to help fill employment needs of health agencies in the community. Online and traditional seated classes are held for a variety of health and medical office professions, including Nurse Aide, Phlebotomy, Pharmacy Technician, Cardiovascular Technician, Massage Therapy, Medical Coding and Billing, Certified Medical Administrative Assistant (CMAA), and Central Sterile Processing (CSP). Most courses lead to state and/or national certifications. Successful students will be eligible for jobs in nursing homes, hospitals, pharmacies, laboratories, doctors' offices, and other related agencies. National certifications will also allow transient members of our community to depart with portable occupational skills. For more information, please call (910) 938-9264 or email coned@coastalcarolina.edu.

Nurse Aide I
Learn how to provide personal care and perform basic nursing skills. Students will complete class, laboratory, and clinical learning experiences. Upon satisfactory completion of NA I training, graduates are eligible to take the National Nurse Aide Assessment Program (NNAAP) exam (exam fee: \$140). Upon achieving a passing grade on the exam, graduates will be listed as an NA I by the Division of Health Service Regulation (DHSR). Requirements: Must be at least 17 years of age to register. CASAS reading test score of 239 required or high school diploma or equivalent. (See CASAS Information page 8). Documentation of all required immunizations must be completed by the first day of class. You will order your Background check and Drug Screen the first week of class. Be prepared to pay for this! (approximately \$100). Textbook. A current CPR card from the American Heart Association (or Red Cross) is required or you will need to sign up for a CPR class at the time of registration. 162 Hours/\$212.00.
Nurse Aide II
Learn to perform more complex skills for patients and residents. After successful completion of the course, the student is eligible for listing on the North Carolina Nurse Aide II Registry. Requirements: Copy of H.S. Diploma or equivalent, current CPR card (AHA BLS for Healthcare Providers or RedCross), and proof of listing as an NA I on the NC Registry must be presented at time of registration. Documentation of all required immunizations must be completed by the first day of class. You will order your Background check and Drug Screen the first week of class. Be prepared to pay for this! (approximately \$100). Textbook. 175 Hours/\$212.00.
Nurse Aide I Refresher
This course reviews the knowledge and skills in basic nursing care to prepare students to take the National Nurse Aide I Assessment Program (NNAAP) exam. After successful completion of the class the student will sign up to take the state exam. After passing the skills and written/oral competency evaluation, the graduate is listed as a Nurse Aide I on the NC Registry. Requirements: Applicants must have completed an approved NA training course of at least 75 hours -OR- be currently registered as NA I in another state -OR- have an expired NA I registry listing within the last 4 years (any State) -OR- have status as a Hospital Corpsman (or similar military training in any branch). Textbook. 40 Hours/\$126.00.
Medication Aide
Prepare to pass the state Medication Aide competency exam and become listed on the NC Medication Aide Registry. Medication Aides are qualified to administer medication in long term care facilities. Requirements: H.S. Diploma or equivalent required. *CASAS test required (Reading: 239) (See CASAS Information on page 5) Current listing on the N.C. Nurse Aide I Registry required. Textbook. 24 Hours/\$71.00.

Cardiovascular Technician
This program prepares students to become certified EKG technicians/monitor techs. The course will cover anatomy and physiology of the heart, principles of EKG, and recognition of multiple cardiac dysrhythmias. Students will learn cardiac terminology and medical disease processes. The medical and legal aspects of patient contact will be covered. Skills include operating EKG equipment, running EKG's, mounting strips, and the reading and interpreting of cardiac tracings. 24 hours of online work during the 12 weeks of class. Requirements: CASAS test required (Reading: 254 or proof of college courses (transcript) in lieu of CASAS test). (See CASAS information on page 8) H.S. Diploma or equivalent required to take the national exam. Textbook. 123 Hours/\$196.00.
Central Sterile Processing
This online course introduces students to the primary responsibilities of a central sterile processing technician. Their tasks are to process and sterilize equipment and supplies from the operating suites and nursing units of the hospital. These medical professionals are specially trained in the proper care, cleaning, decontamination, and sterilization of all surgical instrumentation. The central sterile processing technician plays an essential role in patient safety and infection control. Requirements: Copy of H.S. Diploma (or equivalent) and a *CASAS Test reading score of 249 is required (See CASAS information on page 8). College transcript will be accepted in lieu of the CASAS test. Textbook is required. Online course - 96 Hours/\$196.00.
Pharmacy Technician
Train to be a Pharmacy Technician. This course will teach the student technician responsibilities while familiarizing them with pharmacy procedures in retail and institutional settings. Students learn medications, federal requirements, patient safety, quality assurance, order entry and processing. Upon completion of this course, students will be prepared to take the PTCB National Certification Exam. Both seated and online classes are offered. Seated class includes online assignments. Requirements: CASAS placement testing is required for seated courses (Reading: 249, Math: 236) OR proof of college courses (See CASAS Information on page 8). Textbooks. 198-202.5 Hours/\$196.00.
Phlebotomy Training
During this 12-week course, students learn to draw blood specimens from patients for the purpose of testing and analysis. Daytime and evening courses are offered. Six weeks of classroom/lab training are followed by six weeks of clinical experience (All clinical training will be daytime hours). Also includes online homework. Requirements: CASAS placement testing is required (Reading: 254) OR proof of college courses (See CASAS Information on page 8). CPR certification. Documentation of all required immunizations must be completed by the first day of class. You will order your Background check and Drug Screen the first week of class. Be prepared to pay for this! Mandatory orientation is held on campus approximately 1 week prior to start date where additional requirements and costs will be detailed. Textbook. 256 Hours/\$212.00.
Massage Therapy & Massage Therapy Clinic
This 734-hour Massage Therapy Program is designed to provide students with the essential skills to become a licensed massage therapist in North Carolina. The program focuses on anatomy, physiology, and muscle movement while providing a strong foundation in the technical skills required to perform basic therapeutic massage. Requirements: Students <u>MUST</u> attend orientation prior to registering. CASAS placement testing required with reading score of 244 (See CASAS information on page 8). Proof of high school or equivalent. Placement test waived with official proof of Associates degree or higher. Textbooks required. 734 Hours/\$212.00.
Certified Personal Trainer (NASM)
Learn the fundamentals of the personal training profession and begin an exciting career as a health and fitness trainer. This course will prepare students to pass the National Academy of Sports Medicine exam while understand the basic principles of Concepts and Structures of Anatomy, Principles of Human Movement Science, Exercise Technique and Training Instruction, Nutrition, and Program Design. Professional Development, Business Practice and Responsibilities will be discussed. This program includes classroom work and practical applications. 232 Hours/\$196.00. NASM Exam fee is \$549.00.

MEDICAL OFFICE

Medical Terminology Online

Students will study the structure of medical words and terms. Emphasis is placed on spelling and defining commonly used prefixes, suffixes, root words, their combining forms, and body organization. Program content covers the basic human anatomy and physiology for all systems; laboratory medicine, pharmacology, elements of medical terms, and names of major diseases, including terms used in physical exams, operative procedures, and diagnosis. An introduction to basic anatomy and physiology is included with an emphasis on the relationship between body structure and function and the procedures common to health care. Upon completion, students should be able to identify body system components and functions relating this knowledge to the delivery of health care. Requirements: Textbook. Reliable internet service for online course. For the online class, attendance is required for the one evening live online session every week. 96 Hours/\$196.00.

Medical Coding Specialist Online

Educational Partners with American Academy of Professional Coders (AAPC). Students in this class will prepare for the American Academy of Professional Coders national Certified Professional Coders examination. The class includes modules of Basic Medical Coding, Medical Insurance, Advanced Medical Coding, and National Certification Preparation. Requirements: Medical Terminology within four years or pass free Medical Terminology Assessment with 80%. H.S. Transcript or equivalent required. Textbooks. Reliable internet service for online course. For the online class, attendance is required for the one evening live online session every week. 318 Hours/\$196.00.

Certified Medical Administrative Assistant (CMAA) Online

Prepare for national certification as a Certified Medical Administrative Assistant (CMAA). This class is designed to give students an opportunity to learn the skills and earn certification to work in a physician's office. Topics include medical terminology, communication skills, administrative duties, and office and financial procedures. Requirements: Textbook. Proof of HS or equivalent. Reliable internet service. Attendance for the one live session each week is required. 150 Hours/\$196.00.

Public Safety

Emergency services (EMT, AEMT, and Paramedic training) courses are designed to meet both the pre-service and in-service training needs of the emergency medical community. Courses are scheduled to fulfill the needs of rescue squads, fire departments, and EMS agencies. Basic telecommunications and emergency medical dispatch are also regularly scheduled. Career and volunteer fire and rescue personnel are provided with the opportunity to gain technical knowledge and skills needed for the effective performance of their duties. In addition to classroom theory, the firefighter has the opportunity to apply firefighting techniques during practical exercises. Training sessions may be held on the College campus or at local fire departments where in-service classes are provided throughout the county.

Law Enforcement
Contact Paul Buchanan at 910.938.6368 or e-mail buchananp@coastalcarolina.edu for information.
Fire and Rescue
Certification courses for fire and rescue personnel are offered year-round. A six-month nighttime Fire Academy is offered twice each year. A six-month daytime Fire Service Academy (which includes Fire and EMT certification possibilities) is also offered twice a year. The application periods for the Coastal Carolina Fire Academy can vary. Please contact Jim Rardin at 910-938-6228, or email firerescue@coastalcarolina.edu for information.
EMT/Advanced EMT/Paramedic/EMD/Telecommunicators
For Emergency Medical Technician, Emergency Medical Dispatch or Emergency Telecommunicator information please contact Contact Beth Himes at 910.938.6127 or email himesb@coastalcarolina.edu . For Advanced EMT or Paramedic please contact Beth Himes at 910.938.6127 or himesb@coastalcarolina.edu .
Emergency Medical Dispatch
This course is designed to prepare students to perform the functions of an Emergency Medical Dispatcher (EMD) using the Medical Priority Dispatch System. Through lecture, demonstration, and hands-on practice, this class will cover all the aspects of the job of EMD. Upon successful completion of this class, the student will be qualified to test for credentialing as an Emergency Medical Dispatcher. For testing information, contact Beth Himes at himesb@coastalcarolina.edu . Requirements: HS Diploma (or equivalency) or take a reading placement test scoring at a 10th grade level. Student must create a profile with Priority Dispatch, register, and pay the associated fee at least two weeks prior to the start of class. Textbook. 24 Hours/\$71.00.

Emergency Telecommunicator
This course is designed to focus on developing the essential knowledge and skills required to function as an Emergency Telecommunicator. The course includes lecture with practical application as well as visiting an actual Public Safety Telecommunications Center. Completion of these courses leads to national certification. Requirements: Textbook. Must be 18 years old and have H.S. Diploma or equivalency. \$191.00
EMT Initial - Corpsman to EMT
Successful completion of course allows students to take the North Carolina or National EMT certification exam. For more information, contact Beth Himes at himesb@coastalcarolina.edu . Requirements: Textbook. Proof of H.S. Diploma or equivalent or a take a reading placement test scoring at the 11th grade level, Joint Services Transcript showing Hospital Corpsman training, Proof of current ARC or AHA CPR certification, Letter of Verification of 10 patient assessments within 3 months of the course start date from the student's command, and a valid/current Driver's License or permit or provide verification of having completed an emergency vehicle operators course (CEVO, EVD,VFIS). 94 Hours/\$207.00.
Emergency Medical Technician - Initial
Successful completion of course allows students to take the North Carolina or National EMT certification exam. The EMT course will include a driving component and 48 hours of required clinical time offered at various scheduled times. Requirements: Textbook. Proof of H.S. Diploma or equivalent AND a take a reading placement test scoring at the 11th grade level OR turn 17 years old by the end of the course AND take a reading placement test scoring at the 11th grade level AND a valid/current Driver's License or permit. For testing information, contact Beth Himes at himesb@coastalcarolina.edu . Clinical sites require a criminal background check /drug screen prior to attending (estimated cost of \$137). Vaccinations are also required before attending clinical. A valid BLS card from the American Heart Association OR American Red Cross will be required to register (HeartSaver is NOT accepted). 288 Hours/\$212.00.
Advanced EMT
This course is a blended course intended to educate currently certified EMT's to the Advanced EMT level. This course introduces advanced emergency medical care. Topics include pathophysiology, pharmacology, advanced airway, advanced patient assessment, cardiovascular emergencies, basic arrhythmias and trauma emergencies. This course follows North Carolina Office of EMS standards and the National EMS Education standards. Requirements: All students must be approved for registration by Beth Himes, 910-938-6127. 264 Hours/\$207.00.
Pre-Hospital Trauma Life Support
Pre-hospital Trauma Life Support (PHTLS) is an NAEMT course. It is recognized around the world as the leading continuing education program for pre-hospital emergency trauma care. The mission of PHTLS is "to promote excellence in trauma patient management by all providers involved in the delivery of pre-hospital care". PHTLS is appropriate for EMTs, paramedics, nurses, physician assistants, physicians, and other pre-hospital providers. PHTLS is accredited by CAPCE and recognized by NREMT. Requirements: Students must pre-register for this course. A \$15.00 student card fee is also required at time of registration. Card fee is not subject to fee waiver for exempt students. Textbook - Pre-Hospital Trauma Life Support - through NAEMT or Amazon. ISBN: 9781284272314. 16 Hours/\$71.00.
Geriatric Emergency Medicine (GEMS)
An NAEMT course that provides EMS practitioners at all levels with the skills and knowledge to address the unique medical, social, environmental and communications challenges of older adults. Developed by NAEMT, in partnership with the American Geriatrics Society, GEMS empowers EMS practitioners to help improve medical outcomes and quality of life for geriatric patients. Requirements: Textbook - Geriatric Emergency Medicine. ISBN: 9781284280159 through NAEMT or Amazon. 8 Hours/\$71.00.

The American Heart Association strongly promotes knowledge and proficiency in all AHA courses and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the AHA. Any fees charged for such a course, except for a portion of fees needed for AHA course materials, do not represent income to the AHA.

All Hazards Disaster Response (AHDR)
An NAEMT course that teaches students how to respond to the many types of disaster scenarios they may encounter, including natural disasters and infrastructure failings, fires and radiological events, pandemics, active shooter incidents, and other mass casualty events. AHDR educates participants on how to analyze potential threats in their area, assess available resources, and create a response plan that will save lives. Requirements: Textbook - All Hazards Disaster Response. ISBN: 9781284297621 through NAEMT or Amazon. 8 Hours/\$71.00.
Principles of Ethics and Personal Leadership (PEPL)
An NAEMT course that provides EMS and Mobile Healthcare (MHC) practitioners at all levels with the necessary knowledge and skills to effectively interact with patients and their families, other medical personnel, co-workers, supervisors and community residents at large. Requirements: Textbook - Principles of Ethics and Personal Leadership. ISBN: 978-1-284-04257-3 through NAEMT or Amazon. 16 Hours/\$71.00.
Advanced Medical Life Support
An NAEMT course that remains the gold standard of education for emergency medical assessment and treatment. Endorsed by the National Association of EMS Physicians, AMLS emphasizes the use of the AMLS Assessment Pathway, a systematic tool for assessing and managing common medical conditions with urgent accuracy. Requirements: Textbook - Advanced Medical Life Support. ISBN: 9781284196115 through NAEMT or Amazon. 16 Hours/\$71.00.
Psychological Trauma in EMS Patients (PTEP)
NAEMT's Psychological Trauma in EMS Patients (PTEP) course gives EMS practitioners the resources they need to help alleviate patients' hidden wounds - intense fear, stress and pain - during a medical emergency. PTEP educates EMS practitioners about the biological underpinnings of psychological trauma, the short and long-term impact on the brain and body, and warning signs that a patient is experiencing extreme psychological distress. EMS practitioners are also taught strategies and techniques to alleviate patients' distress and help patients cope with what they're experiencing to ward off lingering effects. Requirements: Please contact Beth Himes at himesb@coastalcarolina.edu for future dates. 8 hours/\$71.00.
Advanced Cardiac Life Support (ACLS)
This course provides physicians, nurses and paramedics as well as other health care providers with instruction on skills to enable them to provide advanced management of the cardiac patient. Requirements: Please contact Beth Himes at himesb@coastalcarolina.edu for future dates. 16 Hours/\$71.00.
Advanced Cardiac Life Support (ACLS) Renewal
This is a one day course for ACLS recertification. Requirements: Please contact Beth Himes at himesb@coastalcarolina.edu for future dates. 8 Hours/\$71.00.
Basic Life Support (BLS) For Healthcare Providers (AHA)
Intended for participants who provide health care. Taught in accordance with AHA guidelines, this class provides training in CPR skills for all ages using AEDs and how to relieve foreign-body airway obstructions. Requirements: Textbook. 6 Hours/\$71.00.
Heartcode BLS Skills
This is a 2-hour skills only session of the AHA Heartcode BLS Healthcare Provider ONLINE course. Requirements: Registrants MUST complete the online portion and provide a copy of the completion certificate upon registration and to the instructor on the first day of class to take this course. 2 Hours/\$31.00.

CURRENT SCHEDULE OF CLASSES

October – December, 2025

TITLE	START	END	DAYS	BEGIN TIME	END TIME	COST	LOCATION	SEE PAGE
BLS Provider	10/11/25	10/11/25	SA	8:00 AM	3:00 PM	\$71.00	CE 106	26

Trades and Technical

Skills and Trades training is offered in a wide variety of areas such as general contracting, marine engine, environmental science, maintenance and repair, powerline technician (VA Approved), truck driver training (VA Approved), welding, code enforcement, gunsmithing, and veterinary science. Many of these programs are pre-certification classes. Theory is augmented with multiple hours of hands-on training to assist students in obtaining increased confidence, knowledge, and proficiency in these topics.

FACILITIES MAINTENANCE
Electrical Wiring Fundamentals
This course provides an overview of electrical wiring techniques and is suitable for students with no prior knowledge of electrical theory or installation. Emphasis will be placed on the design and installation of residential electrical systems. 48 Hours/\$181.00.
Plumbing Fundamentals
Learn plumbing fundamentals and skills as applied to the home building trade. Course topics will include the proper use of tools and equipment, workplace safety, and related topics. 36 Hours/\$126.00.
EPA Refrigeration Certification
EPA regulations require that anyone who handles refrigerants must obtain certification. This class provides the training and testing required for certification. (This does NOT certify automotive technicians). 15 Hours/\$71.00.
Construction Basics
Get started in a high demand job with competitive wages in less than two months! This 6-week course will equip you with the skills you need to begin a career in the Construction field. You will learn Residential Electrical Wiring, Introduction to Masonry Fundamentals and Plumbing Fundamentals in a hands-on environment. You will also be trained on Construction Estimation as well as Blueprint Reading in order to give you an advantage on job sites. This course will take students through the process of planning, estimating, building, wiring, and plumbing a structure. Certifications include: OSHA 30 Construction, Powered Industrial Truck (PIT), Workzone Safety, AHA Heartsaver. Requirements: Textbook. 232 Hours/\$265.00.
WELDING
Basic Welding SMAW
This class introduces the principles and techniques of shielded metal arc welding (SMAW) known as (stick welding). Emphasis is placed on padding, fillets, and groove welding in various positions on 3/16" to 3/4" carbon steel. Requirements: Tools. Proper PPE. Textbook. 96 - 120 hours/\$196.00.
Pipe Fitting & Welding
This class provides instruction on how to properly prepare, cut, and fit pipe sections together per blue prints, take-offs, and job specifications. Welding positions include 1G, 2G, 5G, and 6G using SMAW process with an introduction to GTAW for root and hot passes according to AWS Standards. Students will learn pipe welding fundamentals which include proper fit-up, joint preparation, tacking, and electrode selection in vertical uphill welding. Students will have the opportunity to gain their AWS Welding Certification in SMAW of Carbon Steel for E6010 (Vertical Uphill) followed by E7018 (Vertical Uphill) pipe applications. Requirements: Tools. Basic Welding or permission of the instructor. 201 Hours/\$196.00.
MIG Welding I & II
The course is designed to prepare the student for intermediate-level occupations within the welding, manufacturing, fabrication, and construction industries. This course develops the student's flux-cored arc welding (FCAW), GMAW, and GMAW Spray transfer techniques. Topics include equipment troubleshooting, performing welds in all positions using FCAW, GMAW, GMAW-S, and basic fabrication techniques. Additionally, this course introduces welding diverse materials, including carbon steel, aluminum, and stainless steel. Upon successful completion of the course, students will have the knowledge to safely employ FCAW, GMAW, GMAW-S equipment, conduct weld tests, interpret blueprints and codes, fabricate using structural steel materials, and have the knowledge to sit for a wide range of industry-specific weld certifications. Requirements: Tools. Proper PPE. Textbook. 156 Hours/\$196.00.

GTAW (TIG) Welding
This course introduces the student to Gas Tungsten Arc Welding (TIG) techniques, principles, methods and practices. The course prepares the student for entry-level occupations within the welding, manufacturing and construction industries. Topics include equipment set-up and performing welds in all positions for GTAW on carbon steel plate, stainless steel, and aluminum. Upon successful completion of the course, students will have the knowledge to safely employ GTAW equipment, conduct weld tests, interpret blueprints and codes, and have the knowledge to sit for various industry specific welding certifications. Requirements: Successfully completed a Basic Welding class such as oxy-fuel gas cutting (OFC), shielded metal arc welding (SMAW), and gas metal arc welding (GMAW) or permission of instructor. 96 Hours/\$196.00.
Welding to Work, Parts 1 and 2
The WELDING TO WORK Training Program is a 14-week course designed to provide students with the basic skills needed to launch a career in Welding. Safety will be emphasized throughout the course. In addition, students will earn certifications in OSHA 10hr, EPA 608 and Forklift Operator License. This course provides a combination of In-class training at 444 Western Blvd. Jacksonville, NC; and On-the-Job Training at Gulfstream Steel & Supply, 301 Hwy 17 S, Holly Ridge, NC and other sites as directed. This course will train students in GMAW/Solid Wire and, FCAW, in all positions. Practical use in oxygen-acetylene, torch cutting, and heating. Training with track torch operation, as well as plasma arc cutting is included. Additional instruction includes GMAW aluminum push/pull spray welding and GMAW spray carbon steel welding. Requirements: Students must complete Part 1 prior to enrolling in Part 2. Part 1 - \$206.00, Part 2 - \$181.00.
CONSTRUCTION
General Contractor Exam Prep
Prepare for the general contractors exam. This course places emphasis on the residential builder and also explains pertinent information relating to the building trades for both commercial and residential general contractors. Requirements: North Carolina and Building Code textbook required. 66 Hours/\$181.00.
Forklift Operator
This course is designed to meet the regulatory standard and provide training for current and new operators of forklifts. The course includes an operator evaluation. Requirements: Attendance for all hours is required. 6 Hours/\$71.00.
OSHA 10-Hour—Construction
This course is designed for individuals who need an overview of how to use the standard and how the standards apply to the construction industry. The course includes a written exam. A certificate of completion is awarded through OSHA to all students who complete the course. Requirements: Attendance for all hours is required. 10 Hours/\$71.00.
OSHA 30-Hour—Construction
This course is designed for individuals who need an overview of OSHA standards and their application to the construction industry. The course includes a written exam. A certificate of completion is awarded through OSHA to all students who complete the course. Requirements: Attendance for all hours is required. 30 Hours/\$134.00.
Construction Quality Management
Construction Quality Management Training (CQM) is a required course by both the Army Corp of Engineers (COE) and the Naval Facilities Engineering Command (NAVFAC). Upon Successful completion of this class, a Certificate of Completion is awarded. Re-certification is required every 5 years. Coastal Carolina Community College's standard registration refund policy does not apply to this class and a waiver of fees is not permitted. Once a student is registered for this course, the registration fee is nonrefundable and nontransferable unless the course is cancelled by the college. Requirements: Attendance for all hours is required. 9 Hours/\$301.00.

CODE QUALIFICATION
Individuals seeking to become certified as building, fire, electrical, mechanical and plumbing code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Certificates are issued by the Board in building, electrical, fire prevention, mechanical, and plumbing. Each category is further subdivided into: Level I, II, and III. Requirements: Code books are required for all classes. For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section.
Law & Administration
This class will give firefighters/students an overview of the NC building regulation system and is designed for the education and training of building, electrical, mechanical, plumbing, and fire prevention code enforcement. Topics within this course include the structure of federal, state, and local governments, the history of the NC State Building Code, relevant General Statutes, and enforcement responsibilities of local inspection departments. This class is a state requirement and pre-requisite for firefighters to qualify to take the NC State Fire Prevention Inspector Level I Certification Test. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 15 Hours/\$71.00.
Building Standard Inspection - Level I
For individuals seeking to become certified as building code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 46 Hours/\$126.00.
Building Standard Inspection - Level II
For individuals seeking to become certified as building code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 40 Hours/\$126.00.
Building Standard Inspection - Level III
For individuals seeking to become certified as building code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 40 Hours/\$126.00.
Electrical Standard Inspection - Level I
For individuals seeking to become certified as electrical code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 42 Hours/\$126.00.
Electrical Standard Inspection - Level II
For individuals seeking to become certified as electrical code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 30 Hours/\$126.00.
Electrical Standard Inspection - Level III
For individuals seeking to become certified as electrical code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 30 Hours/\$126.00.

Fire Standard Inspection - Level I
For individuals seeking to become certified as fire code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 36 Hours/\$126.00.
Fire Standard Inspection - Level II
For individuals seeking to become certified as fire code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 32 Hours/\$126.00.
Fire Standard Inspection - Level III
For individuals seeking to become certified as fire code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. 24 hours/\$71.00.
Mechanical Standard Inspection - Level I
For individuals seeking to become certified as mechanical code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 24 Hours/\$71.00.
Mechanical Standard Inspection - Level II
For individuals seeking to become certified as mechanical code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 24 Hours/\$71.00.
Mechanical Standard Inspection - Level III
For individuals seeking to become certified as mechanical code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 16 Hours/\$71.00.
Plumbing Standard Inspection - Level I
For individuals seeking to become certified as plumbing code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 24 Hours/\$71.00.
Plumbing Standard Inspection - Level II
For individuals seeking to become certified as plumbing code enforcement officials to perform inspections for city, county, or state agencies are required to complete code courses as prescribed by the NC Code Officials Qualification Board. Requirements: For required textbooks and more information, visit www.ncdoi.com "OSFM" > "Codes" > "Code Book Sales" section. 24 Hours/\$71.00.

ENVIRONMENTAL SCIENCE

Wastewater Treatment Plant Operator I & II

This course follows prescribed training to meet certification requirements of the North Carolina Water Pollution Control System Operators Certification Commission. Graduates of this course will be eligible to take the state exam for Grades I and II. 72 hours/\$181.00.

MAINTENANCE AND REPAIR

NC Auto Safety Inspection/OBD Emissions Inspection

This course prepares auto technicians and service personnel as safety inspectors for motor vehicles. The state examination will be given. 8 Hours/\$71.00.

TRUCK DRIVING (CDL)

Truck Driving Training (CDL)

Begin a new and exciting career! This 7-week program offers professional training in all areas required to succeed in the transportation industry. Course content is delivered via classroom and practical application methods. Gain hands-on expertise and experience with vehicle inspections, logbooks, trip planning, and rules and regulations that pertain to industry standards. Students will train daily by completing driving exercises on selected routes as well as practice labs for backing maneuvers; all focused on successful preparation for and completion of NCDOT CDL licensing. Requirements: CDL Class A Permit, valid Driver's License, copy of driving record. 280 Hours/\$910.00.

ELECTRICAL LINEWORKER

Electrical Lineworker I and II

This 14-week program provides individuals with the necessary skills for employment in various electrical utility industries. Course topics will focus on the fundamentals of line construction to include overhead and underground line work, vehicle set-up and operation, transformer wiring and configuration, meter applications, and safe work practices. Student safety and teamwork will be emphasized throughout the course, along with other rules and regulations applicable to the industry. Requirements: 18 years of age, weight restrictions are limited to 275 lbs., DOT physical and drug test, DMV driving history, Valid NC Driver License (must be provided at time of registration). 504 Hours/\$452.00.

Arborist Trainee

This 8-week program prepares individuals with the necessary skills for employment in various tree industries. Course topics will focus on fundamentals of vegetation management to include: tree identification, appropriate pruning and trimming techniques, rigging and tree felling, and the safe use and operation of equipment. Student safety and teamwork will be emphasized throughout the course along with other rules and regulations applicable to the industry. Requirements: Must be 18 years or older to enroll, DOT physical and drug test, DMV driving history, Valid NC Driver License (must be provided at time at registration). 280 Hours/\$241.00.

Powerful Industrial Trucks (Forklift)
This course is designed to meet the regulatory standard and provide training for current and new operators of forklifts. The course includes an operator evaluation. Requirements: Attendance for all hours is required. 6 Hours/\$71.00.
OSHA 10-Hour - Construction
This course is designed for individuals who need an overview of how to use the standard and how the standards apply to the construction industry. The course includes a written exam. A certificate of completion is awarded through OSHA to all students who complete the course. Requirements: Attendance for all hours is required. 10 Hours/\$71.00.
OSHA 30-Hour - Construction
This course is designed for individuals who need an overview of OSHA standards and their application to the construction industry. The course includes a written exam. A certificate of completion is awarded through OSHA to all students who complete the course. Requirements: Attendance for all hours is required. 30 Hours/\$134.00.
VETERINARY OFFICE ASSISTANT
Becoming a Veterinary Office Assistant is a rewarding career in a growing field. As a Veterinary Office Assistant, you can work with animals, be part of a professional veterinary staff, nature center, wildlife center, or animal sanctuary. This program is comprised of the following 5 courses: Veterinary Assisting, Small Animal Care and Management, Reptile Care and Management; Animal Agriculture (in person or online) and Exotic Animal Medicine. Students completing these classes (in any order) will be awarded the Veterinary Office Assistant Certification of Achievement. Additionally, students may also choose to take the following classes to enhance their knowledge: Avian Care, Wildlife Rehabilitation, and Zoo Horticulture. Each course integrates knowledge and skills related to customer service and administrative fundamentals within the learning environment.
Veterinary Assisting
Learn how to interact with animals and their owners, obtain animal health histories and records, understand veterinary medical terminology, recognize the major breeds of various animals, assist the veterinarian with caring for animals, assist with surgical and treatment procedures, recognize signs and symptoms of illness and disease, and perform administrative duties in the veterinarian office. Requirements: Textbook. 144 Hours/\$196.00.
Small Animal Care and Management
Prepare for an entry-level position as a professional animal care technician. Course topics will include basic small animal anatomy, animal safety, handling/controlling small animals, parasite recognition, animal first aid, and skin disorders. Requirements: Textbook. 48 Hours/\$126.00.

Reptile Care and Management
Reptile Care and Management is an introductory course designed to teach students the basics of herpetology and their captive care. Topics will include anatomy, reproduction, handling and safety, nutrition, diagnosis and treatment of illnesses, hematology, common diseases, etc. The course will also cover proper husbandry of captive species as well as identification of common pets and species native to North Carolina. 48 hours/\$126.00.
Animal Agriculture
This 8-week course will acquaint students with the basic knowledge and skills of working with various small-scale hobby farm animals such as cattle, equines, goats, sheep, llama, alpaca, pigs, and poultry. Topics will include animal selection, husbandry, nutrition, and illnesses. 24 Hours/\$71.00.
Exotic Animal Medicine
This course is designed to teach and familiarize students with the fundamentals of working with exotic animals. Topics will include anatomy and physiology, parasite recognition, diseases and treatments, safety, vaccinations, restraints and euthanasia. Requirements: Textbook. 24 Hours/\$71.00.
Avian Care
Expand your knowledge with Avian Care. This class is designed to prepare the avian enthusiast and those looking into specialty-based careers. Birds are unique to our animal world and therefore require an extended level of understanding. This course will cover anatomy, physiology, nutritional needs, zoonosis, common ailments, husbandry and proper restraint. Please join us for this 8-week introductory/intermediate course to better understand the avian species. Requirements: Textbook. 24 Hours/\$71.00.
Wildlife Rehabilitation
The Wildlife Rehab course is designed to assist the student in preparation for both entry-level and advanced level intern positions in nature centers, wildlife centers, and animal sanctuaries. Focus will be on the care of orphaned and injured small mammals of North Carolina. Course topics will include advanced topics such as bandaging, splinting, wound management, physical therapy, euthanasia, and necropsy. Requirements: Transportation required. NWRA Wildlife Formulary, 4th Edition. 24 Hours/\$71.00.
Zoo Horticulture
This course is designed to teach and familiarize students with the fundamentals of working in the zoo horticulture field. Topics will include tools used in the field, ability to recognize poisonous plants, how to identify disease in plants, use of fungicides, herbicides, and safety concerns with their uses. Students will also learn about PPE, propagation and pruning of various types of plants, soil conditions, proper use of lime, fertilizer, and soil testing. 24 Hours/\$71.00.
NEW! Animal Training, Behavior, and Enrichment Online
This course explores the main principles of positive reinforcement training, recognizing the root cause of species-specific behaviors, and creating meaningful enrichment. Whether you work with companion animals in your home or exotics in the field, this course is perfect for those interested in learning about the positive effects training and enrichment can have on an animal's well-being. 24 Hours

Community Service Programs

Community service classes reflect the needs and interests of the citizens of Onslow County. These classes provide new avenues for personal development, skills training, cultural enrichment, and lifelong learning. Course offerings may include arts, crafts, cooking, upholstery, sewing, motorcycle safety, defensive driving, and wellness.

No fee exemptions for classes in this section. If for any reason a student cannot successfully complete the class, he or she will need to register again at their own expense.

American Sign Language - Beginner
This course introduces the fundamental elements of American Sign Language within a cultural context. Emphasis is placed on the development of basic expressive and receptive skills. Upon completion, students will be able to comprehend and respond with grammatical accuracy to expressive American Sign Language and demonstrate cultural awareness. 42 hours/\$126.00.
Sewing Basics
This course introduces the basic functions of a sewing machine, fabric terms, tools and machine stitching. Students will learn techniques to include binding, hemming and a stitch sampling. Upon completion, students will have completed 2 sewing projects to include a sewing mat and zipper tote bag. Emphasis will be placed on safe use of the machine and hot iron. Students are responsible to bring their own machines, iron, fabric, and supplies. Material list will be available the first day of class. 24 hours/\$71.00.
DRIVING SAFETY
The Defensive Driving courses fill up quickly. Call 910-938-6294 for available dates. If you received your ticket in Onslow County, please allow 24 hours after your court appearance for your paperwork to arrive at our office before calling to schedule your class. If you have not been to court or if a lawyer went for you, you will need to complete a registration form in order to sign up for a class.
Defensive Driving - Alive @ 25 (4-Hour)
This course is designed to teach defensive driving techniques to students ages 16 to 25 with a traffic citation. For traffic offenders, permission must be obtained from the District Attorney's Office in Onslow, Duplin, or Sampson Counties in order to attend. This course is also open to the public for self-improvement. 4 Hours/\$55.00.
Defensive Driving (4-Hour)
This 4-hour course is offered in conjunction with the District Attorney's Office in Onslow, Duplin, or Sampson Counties. Anyone receiving a moving traffic citation that did not result in an accident may be eligible to take the course. Upon successful completion of the course, a moving violation may be submitted to DMV as a non-moving violation. The course is also open to the public for self-improvement. 4 hours/\$55.00.
Defensive Driving - Attitudinal Dynamics (8-Hour)
This course is offered once monthly on Saturdays only. It is an 8-hour defensive driving course offered for repeat offenders, or for excessive speed offenders. For traffic offenders, permission must be obtained from the District Attorney's Office in Onslow, Duplin, or Sampson Counties in order to attend. 8 hours/\$105.00.
Motorcycle Safety - Basic Rider Course
The BRC is designed for beginning riders of all ages. Graduates will receive an MSF completion card that may qualify them for an insurance discount and a NCDMV waiver card for the riding skill portion of their NCDMBV test. 18 hours/\$166.00
Requirements: Be at least 16 years of age, be able to ride a bicycle, completion of a waiver form (if under age 18, a parent must be present at the first class to sign a waiver). Must attend all classes, ride all exercises, wear protective gear at all times (helmet, long sleeve shirt, long trousers, full finger gloves, over-the-ankle footwear, and eye protection), and pass written exam and riding skill evaluation. Must have completed the online MSF Basic eCourse within 30 days of the course start date and present the certificate of completion to the instructor on the first day of class.

Starting Your Business in North Carolina
Navigating the requirements for starting a business in North Carolina can be confusing and sometimes the information friends and websites offer isn't completely accurate. We'll discuss the state, local, and federal requirements for doing business in our state and where to find resources our state offers to help you succeed. I have an EIN, what now? What's the difference between a DBA, Sole Proprietorship, LLC, Corporation, and an S-Corp? How much will this cost? How long does it take? Where do I go to register? How do I get a license? Can I do this from home? Do I need a State Tax Number? 11/12/25 Thursday 1800 – 1930 Skills 104 A/B/C
Content Creation Do's & Don'ts: Tools, Rules & Best Practices for Engaging Content
Great content isn't just about posting, it's about connecting. Whether you're a business owner, creator, or marketer, knowing how to craft compelling content is key to standing out in a crowded digital world. But with ever-changing algorithms, platform rules, and trends, where do you even start? This seminar breaks down the essentials of high-impact content creation, from technical setup to creative strategy. You'll learn practical, actionable steps to produce engaging content—even with just your phone—and avoid common pitfalls that sabotage reach and engagement. In this session, you'll discover: • The Do's & Don'ts of Content Creation – Best practices (and costly mistakes) for hooks, captions, and visuals. • Platform Secrets – Tailoring tone, sizing, and formats for Instagram, LinkedIn, and other key social channels • Pro Tools on a Budget – Free/affordable apps for editing, batching, and optimizing content. • Lights, Camera, Engagement – Simple lighting, composition, and phone filming hacks for polished content. • Batch Recording & Workflow Tips – How to create a month's worth of content in one sitting. • The Hook Formula – Psychology-backed strategies to stop scrolls and boost shares. 11/13/25 Thursday 1800 – 2000 Online
Local SEO Revolution: Optimizing Your Google Business Profile for the AI Era
In today's rapidly evolving digital landscape, your small business's online visibility is more critical than ever, especially with the advent of Google's AI-powered Search Generative Experience (SGE). This webinar, specifically tailored for North Carolina small business owners, will unveil why your Google Business Profile (GBP) is becoming your most powerful tool for attracting local customers. We'll take a deep dive into how to optimize every aspect of your GBP, ensuring it's not just set up, but actively driving traffic and engagement. We'll explore three critical areas: transforming customer reviews into powerful AI signals, leveraging Google Posts for consistent online presence, and utilizing high-quality photos to tell your business's visual story. Discover how AI tools like Gemini can simplify your Google Business Profile audit process, giving you actionable insights to outrank the competition. Don't let your business get lost in the AI revolution – learn to proactively strengthen your digital footprint and secure your place at the top of local search results. 11/19/25 Wednesday 1800 – 1930 Online
Boots to Business
This two-day seminar will provide participants with an introduction to business ownership and guide them through the start-up process. Topics include: entrepreneurship assessment, business feasibility, the business plan, understanding your market, business legal structure, and sources of funding. INDUSTRY TRAINING

In cooperation with the North Carolina Community College System (NCCCS), the Industry Training Center (ITC) will design a customized training curriculum to meet individual company needs under the State's Customized Training Program. Industries that qualify for this free training include manufacturing, technology intensive, regional or national warehousing and distribution centers, customer support centers, air courier services, national headquarters with operations outside North Carolina, and civil service employees providing technical support to US military installations located in North Carolina. Eligible businesses and industries must demonstrate two or more of the following criteria: the business is making an appreciable capital investment; the business is deploying new technology; the business is creating jobs, expanding an existing workforce or enhancing the productivity and profitability of the operations within the State; and the skills of the workers will be enhanced by the assistance. Training may be conducted at the company's site by College faculty, third-party contracted resources, or by subject matter experts within the company. To learn more about how the Industry Training Center can support your training needs, contact Carla Watkins at **(910) 938-6302** or watkinsc@coastalcarolina.edu.

Admissions Policy: Coastal Carolina Community College maintains an open door admissions policy for all applicants. The College serves all students regardless of race, creed, sex, national origin, age, or physical handicap. Selective placement of individual students in the different programs of study within the College is determined by the Admissions Office, within the guidelines established by the State Board of Community Colleges and the North Carolina Community College System for each program of study and course offered.

Admissions Process

1. Complete an application for admission. Visit www.coastalcarolina.edu for an admissions application – click on Applying Online. Your application will be submitted electronically. In order to take advantage of early registration opportunities, new students should begin the admissions process as soon as possible.
2. Submit official high school transcript (or GED®/Adult High School) and all transcripts from any schools attended after high school.
3. Meet with an academic counselor to plan your program of study and assist in scheduling your classes.

For current semester information please visit
www.coastalcarolina.edu/campus-life/calendars/
